

resident business profile

Nancy Clark

When Brittany Ongaro was diagnosed with melanoma in her mid-twenties, it was a scare that put her and her mother, Barbara, into action. Always interested in wellness and health, the mother/daughter team began researching the ingredients that are used in skin, body and hair care. To their surprise — and frustration — they found many products and brands use toxic components. This dynamic duo set out to change that with their own line of skin, body and hair care products.

keeping it plump and firm. Unlike other products, Ongaro Beauty also uses USDA Certified Organic Aloe Vera — not water — as the base ingredient in each of their products. When combined with the three active ingredients, it provides the most powerful anti-aging technology on the market today.

In January 2017, Barbara and Brittany officially launched Ongaro Beauty to the public. The Ongaro Beauty line currently includes 15 products for skin care, body care and hair care. All products are manufactured and packaged right here in the USA using only the best pharmaceutical-grade ingredients. The duo helped with the logo design, branding and packaging.

The Ongaro family have been residents of Starwood for more than 14 years and every member of the family is a part of Ongaro Beauty. Barbara and Brittany are Co-Founders and assist with product development, marketing and social media. Dad Brian serves as President and oversees the day-to-day responsibility of business operations, manufacturing and fulfillment. With an entrepreneurial spirit and mindset, they are already planning an expansion of their line to include lip products and foot care. Brother Brandon, age 25, is an occasional consultant and full-

Barbara and Brittany spent more than a year working with chemists to develop the first line of beauty products to use three breakthrough active ingredients: 1) Probiotics Technology to improve the skin's successful growth and renewal process along with improving cell cohesion, critical for beautiful looking skin; 2) Plant Stem Cells to protect the longevity of skin stem cells and combat chronological aging. Studies have shown that plant stem cells can reduce visible wrinkles in the skin; and 3) Peptides, chains of amino acids that are the building blocks of proteins in the skin,

time consumer! Customers include all men and women who are interested in anti-aging and maintaining a youthful appearance.

Ongaro Beauty is truly a breakthrough in anti-aging technology containing no toxic ingredients. Compared to similar high-end products on the market that may contain one active ingredient, all of Ongaro Beauty products are affordably priced from \$20-\$50. Visit www.ongarobeauty.com to learn more about each of the products available. The Ongaro Beauty line is also available on Amazon.com.
